\$5-trillion economy by FY25 wishful thinking, says ex-PM Manmohan Singh

FE BUREAU New Delhi, February 19

FORMER PRIME MINISTER Manmohan Singh on Wednesday termed the government's target to turn India into a \$5trillion economy by FY25" wishful thinking" and said it was not even willing to acknowledge the current slowdown.

"Today, we have a government which doesn't acknowledge that there is such a word as slowdown. This is not good for our economy. If you don't recognise the problems that you face, you are not likely to find credible answers to take corrective action. And that is the real danger,"Singh said. He was speaking

Planning Commission vicechairman Montek Singh Ahluwalia's book, titled *Back*stage: The Story Behind India's High Growth Years.

Economic growth is expected to hit a seven-year low of 5.7% (upon a revised base) in FY20 and the Economic Survey expects growth to pick up to 6-6.5% in the next fiscal. India's nominal GDP is estimated to touch \$2.9 trillion in FY20.

Narrating a story behind India's reforms in the early 1990s, Singh, the then finance minister, credited then Prime Minister PV Narasimha Rao for backing him. But Singh also had to persuade then President R

at a function to release former Venkatraman for his endorsement. As part of the reform process, the plan was to devalue the rupee in two stages. But once the first phase was over, "some people"went to Rao to convince him not to take the second step. So, when Rao asked not to proceed, the then FM rang up the RBI governor, who concurred with him. "Had it not happened once again, the story of reforms would have been different,' Singh said.

> Speaking on the occasion Ahluwalia said today's economy is much more complex than what it was in 1991-92 when India adopted globalisation. So, fixing its woes is all the more challenging now, he said.
