Commenting on the Results, Mr. Shilpan Patel, Chairman and Managing Director said, - “We are pleased to announce the performance for Arrow Greentech during Q3 FY26. During the quarter, company reported revenue from operation of ₹561 million, with marginal growth on YoY basis. EBITDA stood at ₹192 million along with EBITDA margin of 34.3%, increased by 175 bps YoY, Profit After Tax came at ₹133 million and PAT margin of 22.8% witnessing a margin expansion of 19 bps YoY.

During the quarter, our Green Products segment delivered revenue of ₹103 million as compared to ₹53 million, growth of 94% YoY. This milestone is significant not merely from a scale perspective, but from a strategic standpoint. The Green segment represents our long-term growth engine -built around sustainable materials, water-soluble films, and biodegradable polymer technologies that align with global environmental priorities.

On the other hand, our High-Tech segment continues to be the primary revenue driver, contributing ₹458 million during the quarter. This underscores the strength of our relationships, execution capability, and supply reliability in this specialized domain. While the High-Tech segment operates in a relatively mature market, we have maintained revenue momentum through consistent order flow and operational discipline. Importantly, the steady cash flows generated here enable us to reinvest into our future expansion, thereby balancing stability with future-oriented growth.

For Future Outlook, our focus continues to be on broadening and diversifying our product basket to effectively meet the dynamic demands of the industry. The Company's strategy combines financial prudence with innovation-led growth. With disciplined capital allocation, strong R&D capabilities, and a diversified revenue base, management remains confident in delivering sustainable growth and long-term value creation."
